

Zwönitz 2012

The highlight of the show season for the „Saxon color pigeons“

The special show in Zwönitz was held on 7 & 8 January 2012 in the show hall of the “Zwönitz Pigeon Club”. Traditionally the breeders come from all over the world to view the excellent quality of the Saxon Color Pigeons. Zwönitz is always the highlight and the final show of the season for our birds. At this show, 127 breeder's presented their 1439 bird's. In addition to the breeders from Germany, France, Belgium and the Netherland, we could say welcome to the first breeder from the USA who presented his high quality pigeon's. Bill Griebel Sr. from California showed his Saxon Silesian Swallows. The outstanding quality of his bird's was competitive to the pigeons found in their homeland. It was wonderful seeing old and new friends as we welcomed everyone in attendance- breeders and those just visiting from other countries in Europe and the USA

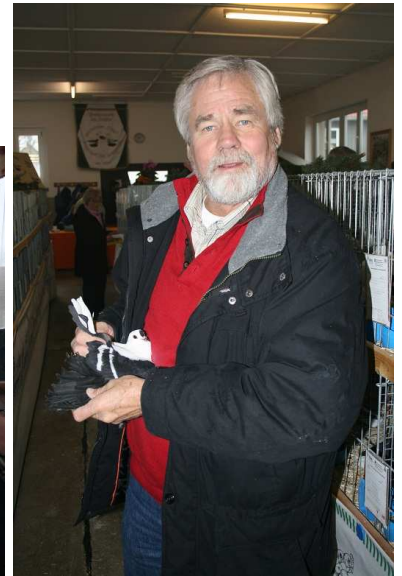

We hope you enjoy our impressions of this year's show and we will be looking forward to seeing each of you again next year. Take care and have a good breeding season.

It will make each of us very happy, to see and visit with you next winter at the shows here in Germany. Our special show is scheduled in Zwönitz on 5. & 6. January 2013. We wish you and your family good health, a great deal of happiness and a good breeding season.

Andreas Reuter
